

Fatima Hospital is made up of hard working and dedicated professionals who not only provide exceptional care, but who also foster a cooperative and supportive work environment unlike any other. That's one of the great things about being a small, community-based hospital. Our people and our patients are able to work together to provide the close, individual-based care that can't be had at the larger hospitals. Together, we are able to successfully meet the needs of both patients and staff, making the experience at Fatima Hospital a positive one.

Program Director of the Central Rhode Island Area Health Education Center
Fatima Hospital, Providence, RI

The Program Director of the Central Rhode Island Area Health Education Center (criAHEC) is responsible for designing and fulfilling work plan specifications and grant requirements for the HRSA-funded AHEC grant for CharterCARE Health Partners criAHEC Program Director will be responsible to determine best practices to increase qualified health care workforce and interdisciplinary training opportunities within the central region of the State of RI. Particular emphasis for SJHS criAHEC is to utilize training opportunities in order to improve recruitment and retention of qualified health care professionals providing care to underserved populations. The Director will work to achieve the AHEC mission to: Enhance access to quality health care, particularly primary and preventive care, by improving the supply and distribution of healthcare professionals through community/academic educational partnerships.

The SJHS criAHEC Program Director will be responsible to plan and implement innovative programs designed to: 1) evaluate and address the regional health care needs of the Central RI community, 2) develop workforce pipeline initiatives to increase and retain qualified workforce, 3) establish successful placement of health care trainees in various health care settings throughout the region, and 4) improve overall access to quality health care and services, with particular emphasis on primary care and underserved populations.

A Bachelor's degree in public health, education, social work or related field is required. Master's Degree or enrollment in a Master's program in public health, education, social work or related field with a minimum of 2-4 years experience preferred. 4 years' experience working with health care needs of underserved populations within Health Care Administration, Public Health, Health Education/Outreach or related areas is required. Demonstrated success in strategic planning initiatives and project management; Involvement in team-based approach to grant writing, implementation, evaluation and compliance; Experience in planning and working with other partnering organizations; Experience working with academic organizations (including students) and advisory partnerships.

We offer competitive compensation and an excellent benefits package, including medical, dental, and life insurance, a flexible spending account, a 403(b) with company match, three weeks' vacation and twelve sick days.
